PART 1

THE CITES LISTINGS IN APPENDICES I, II AND III incorporating amendments made since the Convention came into force and English common names

The scientific names in these lists are based on the official Appendices I and II as at 22 October 1987 and Appendix III as at 21 September 1988, and on previous editions of the official Appendices produced by the CITES Secretariat. The English common names are derived from many different sources but the main criterion for selection has been aptness. The majority are included in Common Names of Species Listed on Appendices I and II also produced by the CITES Secretariat.

Appendices I & II - as at 22 October 1987
and incorporating amendments made since
the Convention came into effect

INTERPRETATION:

1. Species included in these Appendices are referred to:
 - a) by the name of the species; or
 - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only.
4. The abbreviation "p.e." is used to denote species which are possibly extinct.
5. An asterisk (*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix I and that these populations, subspecies or species are excluded from Appendix II.
6. Two asterisks (**) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, subspecies or species of that species or taxon are included in Appendix II and that these populations, subspecies or species are excluded from Appendix I.
7. The symbol (N) indicates that further details concerning that taxon may be found in the Notes on pages 35-39.
8. The symbol (F) indicates that details concerning further changes in the listing of that taxon may be found in the Special Flora Notes on pages 40-41.
9. The symbol (III) indicates that a part or the whole of the taxon was previously listed in Appendix III.

KEY:

- ← (88) [] = Upgrading of taxon to Appendix I.
- ← (88) - [] = Upgrading of part of taxon (i.e. populations, subspecies or species) to Appendix I.
- [(88) → = Downgrading of taxon to Appendix II.
- [(88) → = Downgrading of part of taxon (i.e. populations, subspecies or species) to Appendix II.
- (88) ↪ [] = Incorporation of a population, subspecies or species in a higher taxon.
- (88) = Deletion of a taxon from the Appendices.

Appendix III - as at 21 September 1988
and incorporating amendments made since
the Convention came into effect

INTERPRETATION:

1. Species included in this Appendix are referred to:
 - a. by the name of the species; or until 5 March 1986
 - b. as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purpose of information or classification only.
4. An asterisk (*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, subspecies or species of that species or taxon was included in Appendix I and that these populations, subspecies or species were excluded from Appendix III. This clause has been inapplicable since 5 March 1986.
5. a) Two asterisks (**) placed against the name of a species indicate that one subspecies is included in Appendix II and that this subspecies is excluded from Appendix III.

b) Until 5 March 1986, two asterisks (**) placed against the name of a species or higher taxon indicated that one or more geographically separate populations, subspecies or species of that species or taxon were included in Appendix II and that these populations, subspecies or species were excluded from Appendix III.
6. The two-letter country codes placed against the names of species or other taxa are those of the Parties submitting these species or taxa for inclusion in this Appendix (see KEY).
7. Any animal or plant, whether alive or dead, of a species or other taxon listed in this Appendix, is covered by the provisions of the Convention, as is any readily recognizable part or derivative thereof.
8. The symbol (C) placed against the name of a species or higher taxon denotes that this species or higher taxon was included in Appendix I, except for Canada which entered a specific reservation with regard to them. This clause has been inapplicable since 4 February 1977.
9. The symbol (C) placed against the name of a species or higher taxon denotes that this species or higher taxon was included in Appendix II, except for Canada which entered a specific reservation with regard to them. This clause has been inapplicable since 4 February 1977.
10. The symbol (N) indicates that further details concerning that taxon may be found in the Notes on pages 35-39.

SPECIAL FLORA NOTES:

Since 1 August 1985 all parts and derivatives of flora listed in Appendix II of the Convention are subject to CITES controls except:

- a) seeds (except of Cycadaceae spp., Stangeriaceae spp. and Zamiaceae spp.)
- b) spores and pollen (including pollinia)
- c) tissue cultures and flaked seedling cultures
- d) fruits and parts and derivatives thereof of naturalized or artificially propagated Cactaceae
- e) separate stem joints (pads) and parts and derivatives thereof of naturalized or artificially propagated *Opuntia* spp. subgenus *Opuntia*
- f) separate leaves and parts and derivatives thereof of naturalized or artificially propagated *Aloe vera*
- g) cut flowers of artificially propagated Orchidaceae
- h) fruits and parts and derivatives thereof of artificially propagated *Vanilla* spp.
- i) parts and derivatives, other than roots and recognizable parts thereof, of *Panax quinquefolius*

Prior to 1 August 1985 all parts and derivatives of flora listed in Appendix II of the Convention were subject to CITES controls except where specifically designated as including only roots, trunks or timber.

This has resulted in the following changes:

<i>Aloe</i> spp.	: formerly included all parts and derivatives, now includes all parts and derivatives except those in notes a), b), c), f).
<i>Araucaria araucana</i>	: formerly referred to timber, now includes all parts and derivatives except those in notes a), b), c).
CACTACEAE	: formerly included all parts and derivatives, now includes all parts and derivatives except those in notes a), b), c), d), e).
CYATHEACEAE spp.	: formerly included just trunks, now includes all parts and derivatives except those in notes a), b), c).
CYCADACEAE spp.	: formerly included all parts and derivatives, now includes all parts and derivatives except those in notes b), c).
DICKSONIACEAE spp.	: formerly included just trunks, now includes all parts and derivatives except those in notes a), b), c).
<i>Dioscorea deltoidea</i>	: formerly included just roots, now includes all parts and derivatives except those in notes a), b), c).
<i>Guaiacum sanctum</i>	: formerly included just timber, now includes all parts and derivatives except those in notes a), b), c).
ORCHIDACEAE spp.	: formerly included all parts and derivatives, now includes all parts and derivatives except those in notes a), b), c), g), h).
<i>Panax quinquefolius</i>	: formerly included just roots, now includes just roots and readily recognizable parts thereof.
<i>Pterygota excelsa</i>	: formerly included just timber, now includes all parts and derivatives except those in notes a), b), c).
<i>Quercus copeyensis</i>	: formerly included just timber, now includes all parts and derivatives except those in notes a), b), c).
<i>Rhipsalis</i> spp.	: formerly included all parts and derivatives, now includes all parts and derivatives except those in notes a), b), c), d).

SPECIAL FLORA NOTES (continued):

- Saussurea lappa* : formerly included just roots, but now listed in Appendix I.
- Swietenia humilis* : formerly included just timber, now includes all parts and derivatives except those in notes a), b), c).
- ZAMIACEAE spp. : formerly included all parts and derivatives, now includes all parts and derivatives except those in notes b), c).
- All other species : includes all parts and derivatives except those in notes a), b), c).

PART 2

A RECORD OF SPECIFIC RESERVATIONS ENTERED BY PARTIES TO CITES.

The scientific names in these lists are based on the official Appendices I and II as at 22 October 1987 and Appendix III as at 21 September 1988, and on previous editions of the official Appendices, produced by the CITES Secretariat. The information included has also been obtained from documents produced by the CITES Secretariat.

A record of specific reservations entered by Parties to CITES
as at 22 October 1987

EXPLANATION:

The list on the following pages details all reservations that have been entered by Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora. The dates given are the date of entry into force of each reservation and, where relevant, the date of withdrawal of the reservation. In the following text, as in the Convention, "species" means any species, subspecies or geographically separate population thereof.

A list of the ISO country codes used is included on page 63.

KEY:

(N) - indicates that further details concerning that taxon may be found in the Notes on pages 58-62.

p - indicates the change to the listing of reservations relating to psittacines entered by Switzerland and Liechtenstein. The previous reservation, which included all Psittaciformes with the exception of a number of specified species, was withdrawn and replaced by a list of those species for which reservations are currently held. As a result, the number of psittacine species for which these countries hold reservations was greatly reduced.

r - denotes a reservation withdrawn as a result of the removal of a species from the Appendices

s - denotes a reservation succeeded by a later reservation involving a higher taxonomic group

t - denotes a reservation withdrawn as a result of a species having been transferred from Appendix I to Appendix II

T - denotes a reservation withdrawn as a result of a species having been transferred from Appendix II to Appendix I or from Appendix III to Appendix II

! - indicates reservations entered by Austria with respect to all amendments to Appendices I and II adopted at the fourth, fifth and sixth meetings of the Conference of the Parties held in Gaborone, Botswana in April 1983, Buenos Aires, Argentina in April 1985 and Ottawa, Canada in July 1987 respectively and with respect to a number of amendments to the Appendices agreed by the Parties by postal vote.

<i>Crocodylus porosus</i>	: Except population of Papua New Guinea and, since 01/08/85, the population of Indonesia and the ranched population of Australia
<i>Echinomastus</i> spp.	: Also referenced in genus <i>Neolloydia</i>
<i>Eschrichtius robustus</i>	: Includes synonym <i>Eschrichtius glaucus</i>
<i>Felis caracal</i>	: Asian population (also listed as <i>Lynx caracal</i> , includes the generic synonym <i>Caracal</i>)
<i>Felis rubiginosa</i>	: Indian population
<i>Fitz-Roya cupressoides</i>	: Coastal population of Chile
<i>Lobeira macdougallii</i>	: Also referenced as <i>Nopalxochia macdougallii</i>
<i>Mammillaria pectinifera</i>	: Also referenced as <i>Solisia pectinata</i>
<i>Moschus</i> spp.	: Populations of Afghanistan, Bhutan, Burma, India, Nepal and Pakistan
<i>Moschus moschiferus</i>	: Himalayan population
<i>Physeter macrocephalus</i>	: Includes synonym <i>Physeter catodon</i>
<i>Pygathrix</i> spp.	: Includes generic synonym <i>Rhinopithecus</i>
<i>Struthio camelus</i>	: Populations of Algeria, Burkina, Cameroon, the Central African Republic, Chad, Mali, Mauritania, Morocco, Niger, Nigeria, Senegal and Sudan

APPENDIX II

- Balaenoptera borealis* (a) : Reservation not applicable to stocks (A) in North Pacific and (B) in area from 0° longitude to 70° east longitude from the equator to the Antarctic Continent
- Balaenoptera physalus* (a) : Reservation not applicable to stocks (A) in North Atlantic off Iceland, (B) in North Atlantic off Newfoundland and (C) in area from 40° south latitude to Antarctic Continent, from 120° west longitude to 60° west longitude
- CACTACEAE spp. (a) : All species of the family in the Americas
- CACTACEAE spp. (b) : Until 29 August 1986, the listing of Cactaceae spp. in Appendix II was annotated "All species of the family in the Americas". This annotation was deleted by an amendment proposed by the Netherlands. The proposal stated that there were four possible interpretations of the annotated listing of Cactaceae spp. in Appendix II:
- a. All cacti regardless of their origin and status (either wild-collected or artificially propagated) were covered by CITES; or
 - b. All cacti taken in the wild in the Americas or artificially propagated in the Americas were covered by the Convention. Therefore, cacti artificially propagated or from naturalized populations from outside the Americas were not covered, except for *Rhipsalis* spp. which was listed separately; or
 - c. All cacti specimens were covered by CITES controls except those from naturalized populations outside the Americas. All specimens of *Rhipsalis* spp. were covered, regardless of their source; or
 - d. Appendix II cactus species included only those whose wild populations were completely confined to the Americas. Therefore, with the exception of *Rhipsalis* spp. which was separately listed, all species with naturalized populations outside the Americas were not covered by CITES controls.

On the basis of these interpretations of the annotation, its deletion resulted in one of the following four additions to Appendix II with respect to which Austria has entered a reservation:

- a. None; or
- b. All cacti artificially propagated outside the Americas and from naturalized populations outside the Americas, except *Rhipsalis* spp. and species already in Appendix I; or
- c. All naturalized populations of Appendix II cacti outside the Americas except those of *Rhipsalis* spp.; or
- d. All species of cactus that have naturalized populations outside the Americas except *Rhipsalis* spp. and those listed in Appendix I.

APPENDIX II (continued)

- | | | |
|------------------------------|---|--|
| <i>Canis lupus</i> | : | Except populations of Bhutan, India, Nepal and Pakistan |
| CHLOANTHACEAE spp. | : | Australian populations |
| <i>Choromytilus chorus</i> | : | Formerly listed as <i>Mytilus chorus</i> |
| <i>Crocodylus niloticus</i> | : | Populations of the following countries: Cameroon, Congo, Kenya, Madagascar, Malawi, Mozambique, Sudan, United Republic of Tanzania and Zambia |
| <i>Crocodylus porosus</i> | : | Population of Indonesia and the ranched population of Australia |
| <i>Cyanoliseus patagonus</i> | : | Excluding <i>Cyanoliseus patagonus byroni</i> |
| Falconidae spp. | : | Except those species listed in Appendix I, which were <i>Falco peregrinus anatum</i> , <i>Falco peregrinus babylonicus</i> , <i>Falco peregrinus peregrinus</i> and <i>Falco peregrinus tundrius</i> and after 04/02/77 <i>Falco araea</i> , <i>Falco newtoni aldabranus</i> , <i>Falco peregrinus</i> and <i>Falco punctatus</i> |
| <i>Felis bengalensis</i> | : | |
| <i>bengalensis</i> | : | Chinese population |
| FLORA spp. | : | The revision of the listing of the parts and derivatives included in Appendix II which was adopted at the fifth meeting of the Conference of the Parties to CITES held in Buenos Aires, Argentina in April/May 1985 resulted in the following additions to Appendix II, with respect to which Austria has entered reservations: |
| | : | All parts and derivatives other than timber, seeds, pollen (including pollinia), tissue cultures and flaked seedling cultures of <i>Araucaria araucana</i> , <i>Quercus copeyensis</i> , <i>Swietenia humilis</i> , <i>Pterygota excelsa</i> and <i>Guaiacum sanctum</i> |
| | : | All parts and derivatives other than roots, seeds, pollen (including pollinia), tissue cultures and flaked seedling cultures of <i>Dioscorea deltoides</i> |
| | : | All parts and derivatives other than trunks, seeds, pollen (including pollinia), tissue cultures and flaked seedling cultures of DICKSONIACEAE spp. and CYATHEACEAE spp. |
| | : | The seeds of CYCADACEAE spp. and ZAMIACEAE spp. |
| Gruidae spp. | : | Except those species listed in Appendix I: <i>Grus americana</i> , <i>Grus canadensis nesiotis</i> , <i>Grus canadensis pulla</i> , <i>Grus japonensis</i> , <i>Grus leucogeranus</i> , <i>Grus monacha</i> , <i>Grus nigricollis</i> and <i>Grus vipio</i> and those listed in Appendix II prior to 01/08/85: <i>Anthropoides virgo</i> , <i>Balearica regulorum</i> and <i>Grus canadensis pratensis</i> |
| <i>Moschus</i> spp. | : | Except populations of Afghanistan, Bhutan, Burma, India, Nepal and Pakistan |
| <i>Moschus moschiferus</i> | : | Except Himalayan population |
| Ornithoptera spp. | : | Sensu D'Abrera |
| Phoenicopteridae spp. | : | Except those species listed in Appendix II prior to 01/08/85: <i>Phoenicoparrus andinus</i> , <i>Phoenicoparrus jamesi</i> , <i>Phoenicopterus chilensis</i> and <i>Phoenicopterus ruber</i> |

APPENDIX II (continued)

- PSITTACIFORMES spp.** : Except *Melopsittacus undulatus*, *Nymphicus hollandicus*, *Psittacula krameri* and those species listed in Appendix I, namely (as at 29/08/86): *Amazona arausiaca*, *Amazona barbadensis*, *Amazona brasiliensis*, *Amazona dufresniana rhodocorytha*, *Amazona guildingii*, *Amazona imperialis*, *Amazona leucocephala*, *Amazona pretrei*, *Amazona versicolor*, *Amazona vinacea*, *Amazona vittata*, *Anodorhynchus glaucus*, *Anodorhynchus leari*, *Ara ambigua*, *Ara glaucogularis*, *Ara macao*, *Ara rubrogenys*, *Aratinga guarouba*, *Cyanopsitta spixii*, *Cyanoramphus auriceps forbesi*, *Cyanoramphus novaezelandiae*, *Geopsittacus occidentalis*, *Neophema chrysogaster*, *Opopsitta diophthalma coxeni*, *Pezoporus wallicus*, *Pionopsitta pileata*, *Psephotus chrysopterygius*, *Psephotus pulcherrimus*, *Psittacula echo*, *Psittacus erithacus princeps*, *Pyrrhura cruentata*, *Rhynchopsitta* spp. and *Strigops habroptilus*
- Trogonoptera spp.** : Ssensu D'Abrera
- Troides spp.** : Ssensu D'Abrera
- Ursus arctos (a)** : All North American subspecies
- Ursus arctos (b)** : Population of Europe, except USSR
- Vulpes zerda** : Includes generic synonym *Fennecus*

APPENDIX III

- Accipitridae spp.** : The Appendix III listing of Accipitridae spp. applied to all species occurring in Costa Rica except *Harpia harpyja* which was already listed in Appendix I
- Anatidae spp.** : Except *Anas aucklandica nesiotis*, *Anas diazi*, *Anas laysanensis*, *Anas oustaleti*, *Branta canadensis leucopareia*, *Branta sandvicensis*, *Cairina scutulata* and *Rhodonessa caryophyllacea* (all included in Appendix I) and *Anas aucklandica aucklandica*, *Anas aucklandica chlorotis*, *Anas bernieri*, *Anser albifrons gambelli*, *Branta ruficollis*, *Coscoroba coscoroba*, *Cygnus columbianus jankowskii*, *Cygnus melanocoryphus*, *Dendrocygna arborea* and *Sarkidiornis melanotos* (all listed in Appendix II)
- Bradypus griseus** : Incorporated into *Bradypus variegatus*, which was listed in Appendix II
- Colombidae spp.** : Except *Ducula mindorensis* (listed in Appendix I) and *Caloenas nicobarica pelewensis*, *Gallicolumba luzonica*, *Goura* spp. (listed in Appendix II)
- Fringillidae spp.** : Except *Carduelis cucullatus* (Appendix I) and *Carduelis yarrellii* (Appendix II)
- Musophagidae spp.** : Except *Tauraco porphyreolophus* and *Tauraco corythaix* (listed in Appendix II)

APPENDIX III (continued)

Psittacidae spp.

: Except those species listed in Appendix I or II (4 February 1977).

Appendix I: *Amazona dufresniana rhodocorytha*,
Amazona guildingii, *Amazona imperialis*,
Amazona leucocephala, *Amazona pretrei*,
Amazona versicolor, *Amazona vinacea*,
Amazona vittata, *Anodorhynchus glaucus*,
Anodorhynchus leari, *Aratinga guarouba*,
Cyanopsitta spixii, *Cyanoramphus auriceps*
forbesi, *Cyanoramphus novaezelandiae*,
Geopsittacus occidentalis, *Neophema*
chrysogaster, *Pezoporus wallicus*,
Pionopsitta pileata, *Psephotus*
chrysopterygius, *Psephotus pulcherrimus*,
Psittacula echo, *Psittacus erithacus*
princeps, *Pyrrhura cruentata*, *Rhynchopsitta*
pachyrhyncha and *Strigops habroptilus*
Appendix II: *Cacatua tenuirostris*,
Calyptorhynchus lathamii, *Coracopsis nigra*
barklyi, *Cyanoramphus malherbi*, *Cyanoramphus*
unicolor, *Eunymphicus cornutus*, *Neophema*
splendida, *Opopsitta diophthalma coxeni*,
Poicephalus robustus, *Polytelis alexandrae*,
Probosciger aterrimus, *Prosopeia personata*,
Psephotus haematogaster narethae and
Tanygnathus lucionensis

Rhea americana

: Except *Rhea americana albescens* (included in Appendix II)

Strigidae spp.

: Except *Athene blewitti*, *Ninox novaeseelandiae*
royana, *Ninox squamipila natalis* and *Otus*
gurneyi (on Appendix I) and *Bubo bubo*,
Nyctea scandiaca, *Otus nudipes newtoni* and
Strix butleri (listed in Appendix II)

Tytonidae spp.

: Except *Tyto soumagnei* (listed in Appendix I)
